

NEW INTERNET SERVICE

Dear Resident,

We are excited to introduce you to Ultra High Speed Internet with SilverIP Communications at Park Millennium! Starting February 20th, you will be able to access Chicago's fastest Internet directly from your unit.

What Is Included

All Residents will receive 30 Mbps Internet service (\$11/month billed by Association). No modem is required. SilverIP provides 24/7 tech support through a dedicated hotline for PM.

Get More Info

SilverIP Representatives will be in the Lobby to answer any questions.

Thursday, February 16: 5P – 7P

Tuesday, February 21: 4P – 8P

How To Connect

Connect your computer, laptop, or router directly into the orange Ethernet jack on your wall using an Ethernet cable.

SilverIP can install a new wireless router for \$50.

You have several options to modify the wiring within your unit. See the reverse for options and pricing. Submit requests by 2/28/2012 to the Management Office.

WIRING OPTIONS

Each resident will have the option of keeping their current Ethernet jack or having a new jack activated. **Please inform the Management Office by 2/28/2012 to choose Option B, C, or D.**

Option A [Default]

There is an orange Ethernet port in your living room. This Ethernet port will be activated and you may plug your router, computer, or other Internet-enabled device directly into this port.

Cost: \$0.00

Option B

You may designate an existing phone jack to be converted into an active Ethernet port. You will lose a phone jack in this location. Your existing orange Ethernet port will no longer function.

Cost: \$0.00 if completed during transition; \$80.00 afterwards

Option C

You may have an Ethernet port added to the wall plate of an existing phone jack. Your existing orange Ethernet port will no longer function.

Cost: \$0.00 if completed during transition; \$80.00 afterwards

Option D

You may activate more than one Ethernet port within your unit. This requires a router, re-wiring, and a technician to set up the network. You may designate up to four (4) phone jack locations to be converted into an Ethernet port. **Note: You will be responsible for adding a power outlet near your unit's network panel (not incl. in prices listed).**

<u>Total Ports</u>	<u>Router*</u>	<u>Jack Install(s)</u>	<u>Total Cost</u>
2	\$50	\$80	\$130
3	\$50	\$140	\$190
4	\$50	\$200	\$250

* You may provide your own router and avoid this cost

New Wireless Router

SilverIP will provide and setup a Cisco E1000 wireless router in your unit for \$50. Contact SilverIP at support@silverip.com or **312-780-0814** to place an order.
